

MEXT reacts to the 2020 Update to the European Strategy for Particle Physics – intending to continue talks with US and Europe

Since I'm at home a lot more lately (for reasons I'm sure everyone is aware of), I revisited some crafts that I discovered while living in Japan. Today I thought I'd share some simple paper craft ideas which can be fun for both adults and children utilizing items that you probably have at home.

Michinoku Coastal Trail From the Sky: Spring, Summer, Fall

This is a perspective you don't get to see on foot: let us show you how lovely the Michinoku Coastal Trail is from the sky. We start with scenes of cherry blossoms in the spring, then the forest and sea along the meandering ria coastline, the glowing sunset reflecting from calm bay waters, and white waves crashing against the rocks. Enjoy the many faces of the ever changing ocean along the Michinoku Coastal Trail from a bird's perspective.

About Tohoku ILC Promotion Council

This conference, consisting of industry, academic, and government representatives, has been established to promote basic scientific research and to deepen the understanding of the International Linear Collider, as well as to research and maintain the environment during ILC installation.

<http://www.tohoku-ilc.jp/en>

That's the news for this month! As always, feel free to send us any questions about local activities for the ILC, life in the region, or about working in Japan.

Best wishes,

The Tohoku ILC Promotion Council
